

STOP PREDATORS

What should I be looking for to know if my child is at risk?

What are the signs of trafficking and what can I do about it?

Can it occur in our neighborhood?

Could this happen to a student in my child's class?

Our goal is to give you the necessary tools to answer these questions.

Shared Hope International has created a presentation to help educate children and the adults who care about them. If your child knows the signs of recruitment, they will be able to take action before they, or their friend or younger sibling, falls victim.
